
Flat pack unit

The roof and floor of flat pack units are prefabricated, we will provide the drawings and instructions for the rest assemble work. It can be used as both permanent and temporary structures for accommodation, offices, events common rooms.

The biggest incentive and advantage of flat pack unit is that they are quite cheap. This gives a great sigh of relief to the people who were thinking about to go for kit homes, container houses, temporary construction accommodation, offices etc. Compared to building a home in a conventional way, the flat pack unit can be inexpensively designed to enjoy a modern and first-in class living space (as per your requirement).

There is just no limit in designing the flat pack structures, as they can be built in many different sizes and colors for every situation. As per your requirement, you can convert the flat pack units to a desired space that will offer a comfortable and leisure space.
